### **Notice to Reader**

*This MRFP has been amended to correct the “Closing market price” for the year 2013 contained in the Ratios and Supplemental Data table on page 6.*

### **A Note on Forward/Looking Statements**

*This document may contain forward/looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward/looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as “may”, “will”, “should”, “could”, “expect”, “anticipate”, “intend”, “plan”, “believe”, or “estimate” or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward/looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward/looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the fund may invest, and the risks detailed from time to time in the fund’s simplified prospectus. Forward/looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward/looking statements and should be aware that the Fund may not update any forward/looking statements whether as a result of new information, future events or otherwise*

## **MANAGEMENT DISCUSSION OF FUND PERFORMANCE**

### **THE FUND**

The Ravensource Fund (“Ravensource” or “Fund”) is a closed-end mutual fund trust, the units of which trade on the TSX under the symbol RAV.UN. By way of a special meeting of unitholders, Stornoway Portfolio Management Inc. (“Stornoway” or “Investment Manager”) was appointed the Investment Manager to the Ravensource Fund effective July 1, 2008. Stornoway’s responsibilities for Ravensource include the evaluation, selection and negotiation of investments, the ongoing monitoring and evaluation of such investments and the recommendation of the appropriate timing and structure for disposition of such investments.

### **INVESTMENT OBJECTIVE AND STRATEGIES**

The principal objective of Ravensource is to achieve absolute long-term returns, with an emphasis on capital gains, through investments in selected North American debt instruments, creditor claims and equity securities. The investment objectives of the Fund are stated in detail in the Declaration of Trust and in greater detail on the Fund’s website.

To achieve its investment objectives, Ravensource’s investments fall primarily in three strategies:

1. *High Yielding Securities:* investing in corporate debt, income fund units, or other securities that produce a sustainable high level of income for the underlying credit risk.
2. *Distressed Securities:* investing in corporate debt, creditor claims and/or equity securities of companies which are in, or perceived to be in, financial distress at a price materially different from what we believe to be the underlying fundamental value of the securities.

3. *Special Situations Equities*: investing primarily in Canadian and U.S. small- and mid-cap equities that have been identified as not only attractively valued but also with the catalysts to unlock value.

## **RISK**

Risks associated with an investment in the units of Ravensource are discussed in the Annual Information Form and in the notes attached to the financial statements which are available on the SEDAR website at [www.sedar.com](http://www.sedar.com) and on the Ravensource website at [www.ravensource.ca](http://www.ravensource.ca). There has not been a change in the Fund's stated investment strategy or other changes that would materially affect the risk of investing in Ravensource during 2013. The Fund continues to be suitable for those investors seeking long-term capital growth, have a long term investment horizon and possess a medium to high risk tolerance to withstand the ups and downs that go along with investing in out-of-favor securities.

## **LEVERAGE**

The Fund's total indebtedness cannot exceed 30% of the total assets of the Fund. Unsettled securities transactions are not considered borrowings for purposes of the limitation on the use of indebtedness calculations. During 2013, Ravensource did not employ any leverage.

## **RESULTS OF OPERATIONS FROM JANUARY 1, 2013 TO DECEMBER 31, 2013**

Ravensource's net assets increased by \$3.56 million or 19.4% year-over-year as the increase due to the Fund's investment performance was partly offset by \$0.4 million of distributions to unitholders. In 2012, Ravensource's net assets increased by \$1.76 million or 10.6% net of \$0.8 million of distributions.

### **Investment Performance**

Ravensource's net asset value per unit ("NAV") increased by \$2.33 / 21.6% including distributions and after all fees and expenses over 2013 due to the strong performance of its investment portfolio. The Fund's 2013 performance compares favourably against all of the benchmarks the Investment Manager utilizes to measure the Fund's relative performance: a 13% increase in the S&P TSX Composite Total Return Index, a 7.6% increase in the S&P/TSX Small Cap Total Return Index, a 6.8% increase in the B of A ML High Yield Master II Index and a 13.8% increase in the Credit Suisse Distressed Index. As a reference, Ravensource's NAV per unit increased by \$1.50 / 15.35% over 2012 versus the 7.2% increase in the S&P TSX Composite Total Return Index. All index and fund returns are calculated on a total return basis.

This year's 21.6% net return somewhat downplays the performance of the underlying investments. With over 30% of the Fund's net assets being held in cash on average over the year that is effectively earning a zero return, the investment portfolio had to earn over 31% to cover the fees and expenses and to generate this result. As such, in an otherwise sanguine investment environment as evidenced by the lacklustre returns for the general market, Ravensource's investment results outperformed far greater than appears on the surface.

The Fund's position in Specialty Foods Group warrants was again the star performer as the hot dog maker continues to generate significant free cash flow from its operations thereby creating value for its investors. The Fund's investments in Jovian Capital (JOV:TSX), Genworth Financial (GNW:NYSE), Tuckamore Capital (TX:TSX), and Winpak Ltd (WPK:TSX) also contributed significantly while investments in Arcan Resources (ARN:TSX), Crystallex International, Great Basin Gold (GBG:TSX) and Ivanhoe Energy (IE:TSX) detracted from this year's performance.

### **Distributions**

Ravensource Fund's distribution policy is to make semi-annual distributions to unitholders in an amount to ensure that it does not incur any tax liability and to provide a reasonable yield for investors. The Fund made semi-annual distributions of \$0.09 per unit on June 28, 2013 and \$0.15 per unit on December 27, 2013. In total, the distributions for 2013 amounted to \$0.24 per unit versus \$0.45 per unit in 2012. Despite the

year-over-year decline, there was no change in Ravensource's distribution policy. The 2012 distribution was unusually high as the Fund received a large amount of special dividends on certain of its investments, necessitating increased distribution in order to maintain the Fund's non-taxable status.

### **Redemptions and Recirculation of Units Tendered for Redemption**

Ravensource Fund offers an annual redemption privilege that allows unitholders to redeem 100% of their units for cash at a price equal to the Net Asset Value – adjusted to reflect expenses incurred to affect the redemption – as calculated as of the Annual Redemption Date. In the event that unitholders elect to redeem units under the annual redemption privilege, the Fund has the right to enter into a recirculation agreement with an investment dealer who will use commercially reasonable effort to find purchasers for the units tendered for redemption at the redemption price. For further details, please refer to the Declaration of Trust which can be found in the "Key Documents" section of the Ravensource Website at [www.ravensourcefund.ca](http://www.ravensourcefund.ca) and on SEDAR website at [www.sedar.com](http://www.sedar.com).

Under the 2013 redemption privilege, 76,700 units representing 4.5% of the total units outstanding were tendered for redemption at a redemption price of \$12.37217 per unit. The Fund entered into a recirculation agreement with BMO Nesbitt Burns who successfully uncovered purchasers for all 76,700 units tendered for redemption at the redemption price. As such, there was no change in the number of units outstanding.

As a reference, 1,400 units were tendered for redemption in 2012 at a price of \$10.72834 representing 0.08% of the total units of the Fund outstanding with a total redemption value of \$15,021. The Fund did not enter into a recirculation agreement in 2012 due to the small amount of units tendered for redemption.

### **Liquidity**

Starting the year with 30.5% of the Fund's net assets in cash, gains in the value of its investments along with the impact of the 2013 distributions resulted in a fall in the cash position to 26.7% of net assets as of December 31, 2013. While at historically high levels, the Investment Manager is uncovering attractive opportunities that merit investment.

### **Fees and Expenses**

Ravensource's expenses consist of Investment Manager fees, Trustee & Transfer Agent fees and expenses, TSX listing fees, taxes (including but not limited to GST/HST), interest and borrowing costs, accounting and audit expenses, the Independent Review Committee ("IRC") expenses, legal and professional expenses.

The annualized Management Expense Ratio ("MER") measures the amount of annual fund expenses expressed as ratio to average net assets. To understand the way we report Ravensource's interim MER, we must first explain our methodology. Incentive fees are different than other fund expenses as the amount incurred is a function of the Fund's annual investment performance over and above the 5% hurdle rate along with meeting other conditions. If the annual return during the year is less than 5% after all other fees and expenses, the incentive fee will be zero and burden to make up for the year's under-performance will be carried into the future before the investment manager receives an incentive fee. In contrast, accountants, auditors, lawyers and other sources of fee expenses will demand full payment regardless of whether the Fund performs well or not. As such, we believe the appropriate way to incorporate the incentive fee is to report the MER on both a pre and post incentive fee basis and not to annualize the incentive fee for interim periods.

Incorporating the Fund's direct expenses but excluding the incentive fee, Ravensource's MER for 2013 was 1.56%, a decrease of 73 basis points over fiscal 2012's MER before incentive fee of 2.29%. The decrease in the MER over 2013 is primarily a result of a decrease in legal fees and a partial waiver of Management and Administration Fees charged by the Investment Manager.

Legal and accounting fees decreased by 55 basis points of average net assets in 2013 versus fiscal 2012. Ravensource incurs professional expenses, largely arising from services provided by legal and restructuring professionals in the negotiation and/or protection of its investments. In 2013 professional fees were significantly lower overall than in 2012, although Ravensource incurred significant expenses on its Crystallex investment in the first half of 2013.

Management and Administrative Fees declined slightly over 2013 to 0.68% of average net assets, versus 0.76% for fiscal 2012. The decline is due to Stornoway's policy to pass on the economic benefit of fees earned under the SFG Services Agreement by reducing the Management and Administrative Fees charged to the Fund. See Related Party Transactions for more information.

The Incentive Fee accrued for 2013 amounted to \$891,886 or 4.43% of average net assets, versus an incentive fee of \$148,162 or 0.85% for fiscal 2012. While the Fund generated improved investment performance in 2013 versus 2012 thus incurring a larger incentive fee, the 2012 incentive fee was also depressed due to the requirement to make up for losses and under-performance vis-à-vis the hurdle rate in previous periods.

Factoring in the impact of the incentive fee, Ravensource's MER for 2013 was 6.27% versus 3.14% for 2012. The 313 basis point increase in the MER is due to a 358 basis point increase in the incentive fee partially offset by the above-mentioned decreases in management, administration, and legal/professional fees

## **RECENT DEVELOPMENTS**

### **International Financial Reporting Standards**

Commencing January 1, 2014, the Canadian Accounting Standards Board (AcSB) requires investment funds to adopt International Financial Reporting Standards (IFRS) as published by the International Accounting Standards Boards. Accordingly, the Fund will publish its first unaudited interim financial statements in accordance with IFRS for the 6-month period ending June 30, 2014 and its first audited annual financial statements in accordance with IFRS for the year ending December 31, 2014. The Investment Manager has not identified any changes that will impact NAV per unit as a result of the changeover to IFRS. However, this determination is subject to change as the Investment Manager finalizes its assessment of the impact of IFRS, and the impact of new standards issued by the IASB prior to the Fund's adoption of IFRS.

### **Harmonized Sales Tax ("HST")**

In 2013, three provinces – Quebec, Prince Edward Island, and British Columbia – implemented significant changes to their sales taxes. Both Quebec and Prince Edward Island harmonized their provincial sales tax systems with the federal GST, while British Columbia replaced the HST with the federal GST and its provincial sales tax. There was no material impact on the Fund expenses due to the implementation of these changes.

## **RELATED PARTY TRANSACTIONS**

### **SFG Services Agreement**

The Fund has an investment in the securities of Specialty Foods Group Inc. ("SFG"). Additionally, another fund managed by the Investment Manager holds investments in SFG securities. During 2012, the Investment Manager entered into a services agreement with SFG (the "SFG Services Agreement") whereby the Investment Manager is to provide strategic advice and analysis to SFG and in return will earn a fee for these services. As per its internal policy and approved by the Fund's IRC, the Investment Manager reduced the management fees and administrative fees that it charges to the Fund in order to pass along the economic benefit of the fees earned by the Investment Manager from the SFG Services Agreement in an amount proportionate to the Fund's relative investment in SFG securities. During 2013, the Investment Manager reduced management fees by \$59,775 (2012 - \$49,720) and reduced administrative fees by \$32,225 (2012 - \$26,772), which fees and costs would have been subject to HST. Therefore, the total impact of the fee reductions amounted to \$103,960 inclusive of HST (2012 - \$86,437) as noted in the financial statements. The

Investment Manager will continue to reduce the management fee and administrative fees accordingly for so long as Ravensource is invested in SFG securities and the Investment Manager continues to receive fees under the services agreement with SFG.

### **Investment Manager Compensation**

The Investment Manager receives compensation for performing various responsibilities and services to Ravensource Fund. The total compensation accrues from various components: Management Fee, Administration Fee, Investor Relations Fee and the Incentive Fee. The aggregate fees accrued for the year ended December 31, 2013 amounted to \$1,028,997 (2012 - \$281,231). The breakdown of the fees is as follows:

#### **i. Management fees**

The management fee payable to the Investment Manager is based on the Fund's average weekly net assets at the end of each week and payable on the last business day of each calendar month as follows:

<b>Average weekly net assets</b>	<b>Management fee</b>
Up to and including \$250 million	0.65% of net asset value plus HST
Between \$250 million and \$500 million	0.60% of net asset value plus HST
\$500 million and more	0.55% of net asset value plus HST

Management fees after reductions amounted to \$80,330 for 2013 inclusive of HST (2012 - \$77,681). The Investment Manager reduced the management fees by \$59,775 as described in note 3(a) to the financial statements. In the absence of the management fee reduction, total management fees for 2013 would have amounted to approximately \$147,876 inclusive of HST (2012 - \$133,865).

#### **ii. Administrative fees**

Subject to the supervision of the Trustee, the Investment Manager agrees to be responsible for and provide certain administrative services to the Fund. The Fund will pay the Investment Manager a fee based on the Fund's average weekly net assets at the end of each week and payable on the last business day of each calendar month as follows:

<b>Average weekly net assets</b>	<b>Administrative fee</b>
Up to and including \$250 million	0.35% of net asset value plus HST
Between \$250 million and \$500 million	0.30% of net asset value plus HST
\$500 million and more	0.25% of net asset value plus HST

Administrative fees after reductions amounted to \$43,211 for 2013 inclusive of HST (2012 - \$41,828). The Investment Manager reduced the administrative fee by \$32,225 as described in note 3(a) to the financial statements. In the absence of the management fee reduction, total management fees for 2013 would have amounted to approximately \$79,626 inclusive of HST (2012 - \$72,081).

#### **iii. Investor relations fees**

The Investment Manager is paid a monthly investor relations fee of \$1,000 plus applicable sales tax for unitholder reporting and other services provided under a service agreement. The aggregate investor relations fee for 2013 amounted to \$13,560 inclusive of HST (2012 - \$13,560).

#### **iv. Incentive fee**

The Investment Manager will earn an incentive fee equal to 20% of the amount by which the net asset value per unit at the end of the year, adjusted for contributions, distributions, and redemptions during the year, exceeds the net asset value per unit at the beginning of the year by more than 5%, plus any shortfalls from prior years. Incentive fees payable for 2013 amounted to \$891,886 inclusive of HST (2012 - \$148,162).

An explanation of these differences can be found in the notes to the financial statements.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time.

The increase/decrease from operations is based on the weighted average number of units outstanding.

(3) Distributions were paid in cash.

(4) Represents the negative impact on NAV per unit from the issuance of units at a discount plus associated expenses.

(1) This information is provided as at December 31 of the year.

(2) Management expense ratio is based on total expenses (excluding commissions and transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value.

(3) The Investment Manager reduced Management Fees and Administrative Fees in order to pass the economic benefit of fees earned in connection with the SFG Services Agreement to unitholders.

This figure represents what the MER would have been in the absence of these fee reductions.

(4) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(5) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in the portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the fund.

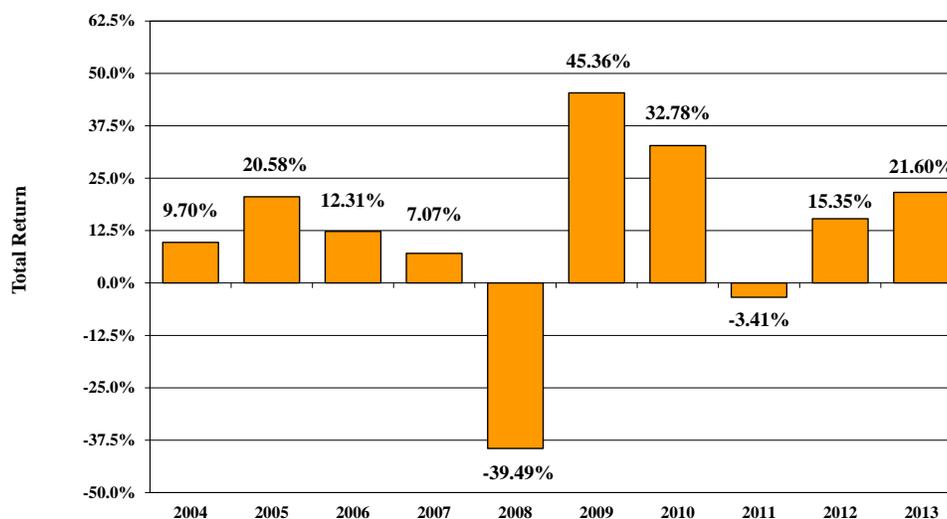

(6) The Closing market price refers to the last bid for a given period end.

## PAST PERFORMANCE

The following performance information assumes that all distributions made by the Fund are used to purchase additional units of the Fund and is based on the net asset value of the Fund, after all fees and expenses have been taken into account. Past performance is not indicative of future performance.

### YEAR-BY-YEAR RETURNS

The following bar chart shows the performance of the Fund for each of the financial years shown. The charts show how an investment in the Fund made on the first day of each financial year would have increased or decreased, in percentage terms, by the last day of each financial year.

### ANNUAL COMPOUND RETURNS

The table below compares the historical annual compound returns of the Fund to various Benchmark Indices.

As at December 31, 2013	1 Year	3 Years	5 Years	10 Years	Since <sup>(2)</sup> Jun-08

(2) Stomoway Portfolio Management was appointed as Manager of the Ravensource Fund effective July 1, 2008.

### Benchmark Indices

The Benchmark Indices represent widely-known, broad-based indices which have been selected for purposes of comparing the performance of Ravensource and individually relate to its three investment strategies. The Fund's performance may or may not correlate to any of these indices and should not be considered as a proxy for any of these indices. The S&P/TSX Composite Total Return Index is the headline index and the principal broad market measure for the Canadian equity markets. The S&P/TSX Small Cap Total Return Index is comprised of a representative sample of investable Canadian small cap companies. The BofA ML High Yield Master II Index tracks the performance of U.S. dollar denominated, below investment grade rated corporate debt. The DJ/CS Distressed Hedge Fund Index tracks the performance of funds that invest in distressed securities.

## **ADDITIONAL INFORMATION**

### **RavenSource Independent Review Committee (“IRC”)**

To adhere to National Instrument 81-107 and to provide an arms-length vehicle to deal with matters that involve potential conflicts of interest between the Fund and the Investment Manager, RavenSource established and maintains an Independent Review Committee (“IRC”). The role, composition and responsibilities of the IRC can be summarized as follows:

- size of the IRC is 3 members that are independent from the Investment Manager with no material relationships to the Investment Manager;
- its mandate is to consider and provide impartial judgment on any conflict of interest referred to it by the Investment Manager;
- when a conflict of interest arises, the IRC will review and recommend to the Investment Manager what action it should take to achieve a fair and reasonable result for RavenSource;
- report to the relevant securities regulators any instance where the Investment Manager acted in a conflict of interest matter in such a way that did not comply with conditions imposed by securities legislation or the IRC;
- meet at least annually with at least one of the meetings to be held “in camera”;
- for each calendar year, the IRC must prepare a report to the RavenSource Fund that describes the IRC and its activities for the fiscal year. This report is posted on the Fund’s website @ [www.ravenSource.ca](http://www.ravenSource.ca)

The IRC is comprised of Michael Siskind (Chairman), David Magahey, and Michael Gardiner.

### **Access to Information**

RavenSource Fund continues to be in compliance with the requirements of National Instrument 81-106 and publishes its 25 largest holdings quarterly and its net asset value weekly. All of the key Fund documents along with further information on the Fund and the investment team that manages your investments can be accessed through the website ([www.ravenSource.ca](http://www.ravenSource.ca)). We are committed to keeping the website current and you are encouraged to make use of this resource tool. In addition, we are likely to expand our current reporting to include periodic postings on subjects that may be of interest to unitholders expressed in a less formal manner than is appropriate for this document. Over time we have been mandated to tell you so much in the management discussion and analysis that your patience might be tested by greater length to cover discretionary subjects. Aside from the website, Fund documents can also be retrieved through SEDAR ([www.sedar.com](http://www.sedar.com)).
